OPTIMISED SOLUTIONS.
Fuelling Growth.

**Experienced Team | Sector Expertise
Tailored Solutions | Global Reach**

Rebus Intl Inc is a specialised textile appraisal, liquidation and machinery buying and selling company headquartered in Canada. With a team of experts who combine the deepest textile sector expertise, Rebus has effectively and accurately delivered optimised solution for clients in more than 35 countries across the globe.

The team has hands-on experience in providing solutions to the various challenges faced by the textile plants- buying or selling of a single machinery or entire project, performing the final closing or restructuring of the plant, managing surplus merchandise or liquidating inventories.

Our clients dispose complete trust with utmost confidence in our solutions that are not only tailored to their needs but also channelized to fuel growth.

OUR VISION

To excel as the pre-eminent leader in textile plant appraisals, liquidation, valuation and strategic consultation and help our clients with solution and information that expedite business decision making and maximize the returns.

To be the most-preferred supplier of fabrics and raw material to the textile industry by offering premium quality products at reasonable prices.

To be the most trusted supplier of pre-owned machinery from across the globe by providing best-in-class technology and value for investment.

OUR MISSION

To be a responsive and reliable partner who rapidly provides accurate, informative and powerful solutions that facilitates change and fuels growth thereby ensuring that clients can effectively leverage their business.

To achieve 100% client satisfaction by providing quality products and solutions and following a systematic process that ensures smooth and efficient project completion.

SERVICES OFFERED:

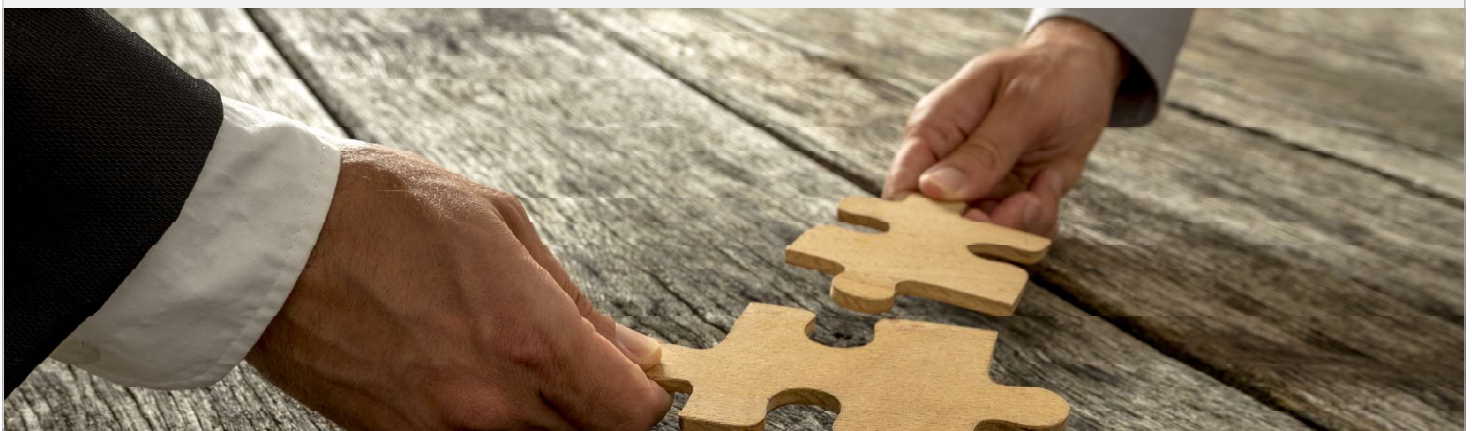

Textile Plant Valuation and Audit: After thoroughly understanding your company's purpose of valuation, our team of credible auditors gain an insight into the procedures and systems while analysing the problem areas. They then help the clients develop fresh perspective, innovative approaches while introducing meaningful and practical strategies and systems that are explicit and actionable. Our client-focused auditing and valuation services help textile manufacturing facilities across the globe in not only assessing the systems but also in checking its safety and compliance thereby ensure quality output.

Appraisal and Liquidation: Delivering accurate and informative appraisals is what we at Rebus are committed to. Whether it is reporting the correct financial position or managing tax liabilities, each facet of our appraisal and liquidation service is targeted towards helping our clients effectively leverage their business.

Machinery Buying and Selling: Our core strength lies in our strong network in the textile sector across the globe. We have successfully helped clients not only liquidate their assets but also provided them with quality equipments and dependable services at competitive prices.

Plant Engineering and Strategy Consulting: Our experience in textile sector plays a major role in providing feasible, practical and executable solutions to clients. When it comes to master planning or phased implementation of textile technology, trust us to deliver fully integrated and effective ideas.

Plant Automation and Training: With a deep understanding of the workings of textile machines and the technology, our team is well-equipped to provide technical training and support for the automation of textile industrial processes.
